what is security valuation  
definition from  
insuranceopedia Sep 22 2020  
web security valuation is a  
process in which regulators  
assess the safety and risk  
associated with the securities  
that an insurance company has  
on its books the purpose of  
doing this is to make sure that

the insurance company is not  
exposed to high levels of risk  
thereby putting policyholders  
in danger of massive losses
