You'll want to spend every minute of your time with the O'Daniel Family, experiencing their simple adventures in a way that only this oldest daughter can weave them. Written with a sense of hope and an amazing capture of mid-twentieth century detail, you will enjoy the opportunity to: Revisit big department stores again, when Louisville's only place to shop was downtown Spend a delightful day at Fontaine Ferry, Louisville's famous amusement park Be part of the quarrels, love and joy – feeling the bonds of this close knit era, when dependence on family members and neighbors was essential. Experience farm life in the suburbs. Deanna's classmates jumped rope in subdivisions while the O'Daniels slopped hogs, killed chickens, and hoped they went to school without smelling like the animals they tended. Only a few can tell their story coherently like Deanna does with this touching memoir. First born in a large rural family, she relates her passage through childhood with charming and accurate descriptions of life in Kentuckiana. A chronicle of many customs and places that are fast slipping away from our collective memories, such as her description of the country store in Nelson County, Kentucky. A book you will tell others, "I'm so fond of this one." John Allen Boyd, Emerson Avery, That Latin Teacher Deanna's story is of dedicated parents and (eventually) 11 children. They migrated near Louisville, Kentucky when Deanna

was five. Her stories about those formative years paint a portrait in glowing colors, depicting struggles and love that molds and endures. You will love Deanna and her story. Terry Cummins, *Feed My Sheep* O'Daniel, a gifted writer who tightly weaves her life's journey through stories that makes growing up on a farm sound like sunshine. She shares the daily toil, angst and rivalry associated with a large family in a humorous, but realistic way – tugging at your heart for a piece of those bygone days. Corridor Jones, *A Backward Glance In 1939*, 400,000 cats and dogs were massacred in Britain, their corpses heaped up outside veterinarians offices. Fear of the imminent German blitz led the government to urge pet owners to spare their animal companions so that they would not suffer in the bombing raids. Hilda Kean's gripping narrative of this little-known event includes tales of smuggling pets into bomb shelters, trading bits of cat food on the black market, and preemptively killing thousands of pets at the start of the war to save the food supplies in England. Kean is able to show vividly how pets were an important part of British wartime experience. She pays close attention to animals, both symbolic and actual, arguing that after the pet massacre, human-animal bonds became stronger and closer. In the process of telling this history, Kean necessarily complicates the picture of World War II as the good war fought by a nation of good, animal-loving people. Her close use of primary materials (diaries, personal sources, contemporary newspapers, collective public reports on daily life, etc.) gives palpable reality to the animals and their fate at this time. This forgotten aspect of Britain's history makes us rethink accepted accounts of the War and shows the ways in which animal and human histories are inextricably linked. We are also constrained to rethink our assumptions about ourselves and the animals with whom we share our homes." A dog obedience specialist offers practical information on choosing the right puppy, nutrition, exercise, and when to take the puppy to the vet. A widowed earl, a governess who is far too clever for her own good, two motherless little girls, and one small dog who manages to bring them all together..."Your First Kiss holds the answer to all that you desire." The fortune drew only laughter from Matilda Fortune when Madame Zeta, a visiting gypsy uttered the ridiculous words.. At eight and twenty, Tildy's first kiss had long come and gone. As had the gentleman who bestowed it...The Earl of Willoughby, widowed and lost, has given up on love. Since the death of his wife, he's lived in a fog. In route to London for the season, his mischievous daughters insist upon stopping at a small village to have their fortunes told at a traveling fair. If only he hadn't allowed the gypsy to read his palm. Is it possible, his future is hidden in the past? Mattie has a couple of dilemmas. First (sigh), her parents are making her babysit her humiliating younger brother nearly nonstop. What could BE more awful than the constant company of a 4-year-old brother who acts like a dog? Then, her best friend's brother begins to show serious interest in her. Mattie thinks all her prayers have come true, that is, until her best friend Livvy stops returning her phone calls. Is this how a best friend should act? Will she have to choose between her best friend and a budding romance, and who should it be? A family crisis will force Mattie to make some difficult decisions. This very funny and very relatable story will appeal to broad swath of young teen girls. Includes 125 stunts involving running, jumping, and scenting designed for dogs who are already trained in basic obedience. **MINIMALIST AND STYLISH JOURNAL** Whether for your desk at home, your work or in your bag on the go this professionally designed 6x9 notebook provides the perfect platform for you to record your thoughts. It's gripping and powerful and disturbingly honest. There are poems that are incredibly comforting and others that are so painful. Trista has the rare talent of writing poems that are both good and true. In terms of literary art, this chapbook is brilliant. Trista weaves together religious overtones with raw sensuality and heartache. She's so purposeful with the imagery, connecting and breaking motifs from each section of the book: how peaches become cherries, how salt is everywhere, the shape of same-different mouths. There is this lovely irony in these poems, how sometimes the speaker of these poems is the one who is described like a dog: sloppy, rabid, hungry, whining. Maybe that's not an irony at all. The Dogs I Have Kissed is for anyone who has felt the tough underside of love, anyone who has been angry and hurt and still strangely hopeful. One of the most

striking lines in the entire book is something I keep thinking about: 'Is this okay, is this okay, is this okay, or does it make me weak?' Do yourself, your heart, and your current/ex/next lover a favor: buy this book. Devour it immediately." --Yena Sharma Purmasir, author of *Until I Learned What It Meant* Blank lined notebook / daily diary / journal to write in for taking notes, organizing, recording your thoughts, creating lists, creative writing and for scheduling. While travelling the world in order to write her award-winning book *Wild*, Jay Griffiths became increasingly aware of the huge differences in how childhood is experienced in various cultures. One central riddle, in particular, captured her imagination: Why are so many children in Euro-American cultures unhappy -- and why is it that children in many traditional cultures seem happier? In *Kith*, Jay Griffiths explores these questions and many more. Moving from communities in West Papua and the Arctic to the ostracised young people of contemporary Britain, she asks why we have enclosed our children in a consumerist cornucopia but denied them the freedoms of space, time and deep play. She uses history, philosophy, language and literature to illustrate children's affinity for the natural world and the essential quest element of childhood. *Kith* is Jay Griffiths' impassioned, illuminating analysis of a universal rite of passage and an antidote to books such as Amy Chua's *Battle Hymn of the Tiger Mother*. In its urgent defence of the rights and needs of every child, it is a journey into the heart of human experience. 'Kith could have been written by no-one but Jay Griffiths. It is ablaze with her love of the physical world and her passionate moral sense that goodness and a true relation with nature are intimately connected. She has the same visionary understanding of childhood that we find in Blake and Wordsworth, and John Clare would have read her with delight. Her work isn't just good -- it's necessary' Philip Pullman 'Jay Griffiths writes with such richness and mischief about the one thing that could truly save the world: its children' KT Tunstall 'An impassioned, visionary plea to restore to our children the spirit of adventure, freedom and closeness to nature that is their birthright. We must hear it and act on it before it is too late' Iain McGilchrist Jay Griffiths is the author of *Pip Pip: A Sideways Look at Time*; *Wild: An Elemental Journey*; and *A Love Letter from a Stray Moon*, a novella about the life of Frida Kahlo. She is the winner of the inaugural Orion Book Award and of the Barnes & Noble Discover Award for the best new non-fiction writer to be published in the USA. She has also been shortlisted for the Orwell Prize and the World Book Day award. Ever wondered whether it's okay to touch your pet turtle? Share a bed with your pet boa constrictor? An Applied Animal Behaviorist and dog trainer with more than twenty years' experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover:

- How you can get your dog to come when called by acting less like a primate and more like a dog
- Why the advice to “get dominance” over your dog can cause problems
- Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief
- How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!”

Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships. There are so many games, tricks, sports, and activities to do for dogs and their owners. Dogs really are a man’s best friend. There are scent games for dogs. There are speed tests for dogs. There are obstacle courses for dogs. And some activities better match some breeds of dogs than they match other breeds of dogs. Some activities could involve more than one dog; or a dog and one or more other animals. Some activities can be done indoors; while some activities can be done outdoors. And the props needed for these activities can be simple or intricate. It is a great idea to have your dog try new things. And not only your dog will enjoy hours of fun, so will you and your family. If dogs are loyal companions of humans, then why not engage your dog in fun activities that really strengthen the bond between you and your dog. An example of the bond between a dog and its owner can be seen in the book called *the Island of the Blue Dolphins* by Scott O’Dell. Our designers have true love for this dog breed cute dogs.
